

CHANGAN AUTO

SLOB

FUTURISTIC & HARMONIOUS STYLE

The unmistakable design language of the SL03 perfectly embodies the core of the Shenlan design philosophy.

The Changan Shenlan SL03 is another joint project between Changan New Energy, CATL, and Huawei. This 'trinity' also works on Avatr and Changan Lumin. The SL03 is based on the EPA1 platform and positioned as a compact mainstream sedan. Its exact dimensions are 4820/1890/1480 mm, with a wheelbase of 2900 mm. It is worth mentioning that the SL03 goes with RWD only.

The Shenlan SL03's styling is great, with sporty proportions, thin headlights, and a cool rear light bar.

PERFECT, PRECISE ENGINEERING

The sleek and streamlined appearance of the SL03 is further enhanced by the retractable door handles when hidden from sight.

Premium aesthetic touches with distinct design accents and precision aerodynamic engineering improve driving stability and ensure an intensely satisfying drive.

Elegant 19" wheels and side sloping lines provide the ideal sporty balance to complete this masterpiece.

ENVELOPE YOUR BODY WITH PLUSH ALL- ROUND SUPPORT

The opulent interior combines ample and comfortable head and legroom. Rear-seat passengers equally enjoy the climate from the rear vents and the comfort of a central arm rest equipped with two cup holders.

UNCOVER THE DESIGN DNA FOR CLASS & COMFORT

- Nappa leather seats.
- D-shaped multi-functional steering wheel.
- Chrome and leather-finished dashboard.
- Rear AC vents.
- Front and rear adjustable headrests.
- Front and rear cup holders.
- Center and rear armrests.
- 10-Way electric adjustable driver's seat with memory.
- 4-Way electric adjustable co-pilot seat.
- Heated and ventilated front seats.
- Front sunvisor with mirror and light.

GO WIRELESS WITH EASE

Ultra-fast phone charging with wide-range compatibility.

Wireless screen mirroring functionality and Apple CarPlay to keep you connected and entertained.

And if you must stay "wired", USB ports at the front and rear ensure you and your passengers still have access to charging devices.

SMART COCKPIT WITH 14.6" ROTATE SCREEN MIRRORING AND VOICE CONTROL

The intelligent 14.6-inch screen design with ultra-wide angle, high-resolution, adaptive back light control, and rotation protects your eyes from fatigue while driving.

The SL03 Advanced Sony audio system features 14 premium speakers plus a subwoofer & a 10-channel independent DSP power amplifier. The innovative "headrest mode" allows the driver to personally enjoy his music without disturbing passengers, an extremely useful feature for when passengers would prefer to rest or nap.

Additional features include a 10.25-inch LCD color digital cluster with Trip & Driving Information.

LIGHT UP YOUR WORLD..

Uniquely designed interior and exterior lighting creates mystique and an unmistakable, eye-catching appeal.

- Trident Daytime Running Lights (DRL).
- Full LED Automatic headlights with height adjustment.
- Streamline tail light.
- LED Rear fog lights.
- LED mirror-side repeaters.
- Plate number lights.
- Interior lights.
- Ambient lighting with 64 color choices.

VIEW PICTURE PERFECT SKY VIEWS FROM A REMARKABLY GRAND PANORAMIC SUNROOF

Set your sights on the sky and beyond with the ultra-wide view of the SL03 panoramic sunroof. On extremely hot days, take shelter from the sun's rays with the electric curtain.

Highly effective cabin isolation provides excellent soundproofing, letting you choose to let the world in when you open it or close it to create your own zen sanctuary.

POWER TRAIN AND BATTERY FROM ANOTHER WORLD

Now let's talk about the powertrain of the Changan Shenlan SL03.

The SL03 EV has one electric motor on the rear axle with 190 KW (258 HP). According to Shenlan, it consumes 12.3 KWH/100KM. These motors are both made by Changan New Energy.

As for the SL03 EV's range, it was claimed to be 515 KM, and it has a ternary (NMC) one made by Changan New Energy.

Why CHANGAN!

Every year, Changan invests 5% in annual sales and revenue totaling CNY 49.6 billion CNY 2 billion has been invested in nine international standard vehicle areas.

1. The investment covers crash safety, brake performance, chassis tests, NVH and drive system.
2. Internationally advanced laboratories: national key laboratories in vehicle noise vibration and safety technology, national and local joint engineering laboratories for hybrid-powered passenger.

Changan Jordan offers a factory warranty for electric vehicles of 6 years or 200,000 km, whichever comes first, from manufacturing faults. It has multiple maintenance centers in the Hashemite Kingdom of Jordan, and it is considered one of the largest in the region.

CHANGAN USES THE BEST PARTS SUPPLIERS IN THE WORLD TO MANUFACTURE ITS CARS
